

Internship

JACK WONG

Email:
jackwong3101@yahoo.com

Mobile Phone
+65 8141 7700 (Singapore)

My Personal Website
<http://www.jackwng.com/>

SKILLS

Comfortable in React.js, ,
node.js,  mongoDB,
Express,  jekyll,
HTML5,  /CSS3, 
/Javascript,  JS, Flutter, , Git,
Ruby, ,  RAILS.

RELATED EXPERIENCES

May-Oct 2019

Worked at [SP Digital](#) (SP Group) as a software engineer intern primarily as a front-end web developer. I worked closely with the design team to develop consumer-facing pages (production) which have more than 10,000 unique visitors within a week. The web pages are mobile and desktop responsive.

<https://utilities.spdigital.sg/> (landing page)

<https://utilities.spdigital.sg/greenup/> (GreenUP project)

<https://utilities.spdigital.sg/smart-meter-app-form/>

and many other pages. I was a core maintainer (alongside one senior engineer) of the front-end codebase.

Summer 2018

Worked at ID Tech (tech education camp) as a coding instructor with the mission of sparking interests in programming among children and teenagers. I taught Java, basic HTML/CSS/Javascript, Python and C++.

<https://www.idtech.com/>

Summer 2018

Built a peer-to-peer food delivery mobile application (IOS and Android) with another partner over the last summer holidays.

Github page: <https://iamjackslayer.github.io/sambl/>

Source code: <https://github.com/iamjackslayer/sambl>

Wrote a few articles/tutorials on Medium all about Flutter (mobile app SDK).

Medium website: https://medium.com/@jackwong_60367

Know Java , Python ,
Scipy, Dart, C, jQuery, MySQL,
and passion for learning new
frameworks/languages/libraries.

CS related courses
(completed/in-progress):
Database System (deployment
and implementation),
Programming methodology in
C and Java,
Data Structures and
Algorithms, Computer
Architecture and Organization,
Software Engineering,
Computer Networks,
Operating Systems, Artificial
Intelligence
Effective Communication for
Computing Professionals

Spring 2017

Self-taught programming experience: Built a chat web application with chatbot functionality (a crude one nonetheless). This is a self-initiated side project built before my very first semester of my university began.
